

Water Heater Rebate Program

Get Cash Back!

Who Qualifies?

- Any MEC customer installing a new electric water heater tank
- Replacing an existing electric water heater
- Installing a new electric water heater in a new home
- Replacing a gas water heater with an electric one
- The new water heater must be a minimum size of 40 gallons
- Customers are not eligible to receive rebate if they receive an **Energy Right** new homes rebate.

Incentive Amounts Available:

Since we want to encourage energy efficiency, we are changing our incentives to reward high efficiency electric water heater purchases. For a limited time, on the purchase of a new water heater, we offer the following:

Purchase	Incentive
Less than .92 energy factor, minimum 30 gallon	receive a \$25 credit on your bill.
.92 energy factor, minimum 40 gallon	receive a \$50 credit on your electric bill.
.95 energy factor, minimum 40 gallon	receive a \$75 credit on your electric bill.
Installing a .95 energy factor, minimum 40 gallon electric water heater in a new home.	receive a \$100 credit on your electric bill.
Converting from gas to electric, .92 energy factor, minimum 40 gallon electric water heater.	receive a \$100 credit on your electric bill.

- Incentive must be requested no later than 90 days from invoice date, WH installation must be complete, and a copy of the purchase invoice must be submitted.
- Tankless water heaters do not qualify for the rebate and are not endorsed by MEC.

Just send a copy of your water heater purchase invoice along with, name, address, phone, MEC account number and indicate which incentive you qualify for; to Mountain Electric, attn: Charles Dunn, PO Box 180, Mountain City, TN 37683.
